

PM-632 SUBE pH POLVO

pH BALANCER

PM-632 SUBE pH POLVO: Naturally alkaline product in solid form used to increase pH levels. It keeps the chlorine active; it is completely soluble and does not leave any residue.

METHOD OF USE AND DOSAGE

- Measure pH levels in the water with a Test-kit.
- If the pH levels are lower than 7.2, add 10 g/m³ of PM-632 pH POLVO to increase between 0.2 and 0.4 units.
- Make sure the product has been previously dissolved in a water bucket before adding the product. Then, spread the mixture in the pool while filtration is on. Keep the filtration on for at least an hour.
- Do not add the product at the same time as carrying out a shock treatment.

PHYSICAL PROPERTIES

- Appearance: White granular solids
- Odour: Odourless
- pH: 11,4 (1%)
- Relative density: 2.509
- Melting point: 851 °C
- Water solubility: 212.5 g/L (20 °C)

HAZARDS AND PRECAUTIONARY STATEMENTS

- Causes serious eye irritation.
- Do not mix with other chemicals.
- Keep out of the reach of children.
- Avoid contact with skin and eyes. Do not breathe dust.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- In case of accident or if you feel unwell seek medical advice immediately (show the label when possible).

PACKAGING

Packed in 2, 6 and 25 Kg
